

Kids Castle Times

June 2022

Ms. Monica & Ms. Sheryl

Hello summer we are ready to begin our fun in the sun. Our first theme of the month will be Camping and Outdoor Exploration. We begin the week off with Earth and explore our own back yard. We will then take the children outside for a nature walk. We will talk about what's it like to go camping and where are places you could go camping at. We end the week with a fun outside activity with water bucket races.

During the second week in June we will dive into a Sports themed week. Our students will be given the opportunity to explore many indoor and outdoor sports. Through our interactive activities, they will gain a better understanding about sportsmanship, teamwork and their ability and potential as an individual. This session will begin with the importance of stretching before any and all physical activities. As the week progresses we will move on to Yoga and meditation. These are also healthy habits to establish for our mind and bodies.

Summer time is full of active fun! In this next session our theme for the month we will explore Outer Space. We will enjoy fun activities such as moonrock and spaceship toss, rocket popsicle day and explore Moon sand. We will also be celebrating out Father's during this week. We will be making Father's Day Cards and asking the children what they love best about their dads.

Who, what, when, why, and where are often the most frequently asked questions as educators that we receive. We will be experimenting with such question by using "scientific method" during our Science Extravaganza week. We will be applying chemistry with a Fizz Bubble Experiment. We will end the week by celebrating one of our favorite teachers Ms. Sheryl. Happy Birthday Ms. Sheryl.

The month will end with the theme "American Patriotism." At this time of the year American Flags are easy to spot. We will use this time to our advantage. We will be talking to our campers about The Statue of Liberty, and the Fourth of July which is also known to be our nation's birthday.

Important Date to Remember...

6/1 Nature Walk

6/6 Wear your favorite baseball cap

6/7 Wear your favorite sports jersey

6/9 Dress for Yoga Exercise
