

April Sunshine Scoop

By: Ms. Sheryl and Ms. Monica

March brought with it some warmer days and lighter evenings. We had many adventures learning about the great animal kingdom. We had so many fun art projects including cats, bunnies, walrus', octopus' hats and fish. We begin the month of April with the theme of Insects. We learned what characterizes an insect and how they are different from spiders. The second theme of the month will be Life Cycle. During this week, we will explore the cycle of an egg, a frog and the human cycle. The month continues with a lesson about what it means to Recycle and Reuse during. During this week, we celebrate the national Week of the Young Child. Look for special themed days including music, tasty Tuesday, team building, and artsy Thursday. Up next we will explore nature and have some fun planting flowers in a pot. To end the month, we will explore transportation and the many ways to travel. It is sure to be a busy month of learning!
