

Kids Castle Times

By Monica Pulizzi & Sheryl Green

March brought with its warmer days and lighter evenings. For Plants week, we will create sunflowers and identify parts of a plant. To finish the week Monticello will have its annual Egg Hunt! It will be an event to remember as students scour the playground for colorful eggs with treasures inside. Insect week brings with it lessons about parts of an insect, a group activity of making a kids castle cocoon, and different insect art activities. Next up is the Life cycle week in which we will be talking about our emotions, the importance of honesty and the life cycle of a human. The month continues with a lesson about what it means to Recycle and Reuse also this is the week of the young child. To celebrate Week of the Child we will create and send home an individual art keepsake to show your child's creations. The month continues with a lesson about what it means to Recycle and Reuse. Continue to review all of the sight words we have introduced as well as the word families. We will be focusing on rhyming words, beginning and ending sounds, as well as vowels and the different sounds they make. It is sure to be a busy month of learning

Special Days

Friday 4/2 In school Egg Hunt

Friday 4/2 Movie Day

Monday April 19th - 23rd Week Of the Young Child Here are a list of activities that will occur during the week
